Tax Solutions in the
BlueGrass State

Kentucky Occupational Tax Portal

Improve accuracy on labor-intensive tax remittance and reduce the amount of time staff spend processing paperwork.

The GovOS Occupational Tax Portal enables jurisdictions to provide businesses with a user-friendly online filing interface that transforms paper-reliant systems. By enabling all tax filing and licensing to be completed online, government agencies can tap into under-collected revenue streams, decrease paper processing times and eliminate math errors.

Take Revenue Collection Paperless

Enhanced Revenues

With auto calculations and the ability to process multiple tax forms through one digital cart, jurisdictions can ensure they collect all taxes, penalties and interest due.

Automatic Deposits

Business payments from all tax forms processed through the system are automatically remitted to the jurisdiction's bank account each day.

Secure Processing

Built with state-vetted security protocols and encryption in place, this SOC 2 certified system was designed to keep jurisdiction and taxpayer information secure.

Key Components

Reduce Human Error

Decrease the number of mistakes due to pen and paper math with automatic calculations. Overpayment, extension payment and estimated payment balances auto-populate on gross receipts/net profit tax returns. For payroll taxpayers, the system automatically pulls quarterly figures onto the annual reconciliation form for comparison to W2 wages.

Easily Manage Extension Requests

Gone are the days of a paper request and manual calculation of the extension payment due. Taxpayers can file extensions themselves through the original gross receipts / net profit due date and utilize the auto calculation extension payment form to remit the amount due.

Reduce Manual Cashiering

Taxpayers can safely remit payment online from anywhere while jurisdictions collect revenue daily via automatic deposits. With extensive experience in online payments, GovOS readily provides support to government staff reconciling deposits to bank statements.

GovOS helps local jurisdictions collect more than **\$2B in tax revenue from over 250,000 businesses.**
